Minutes:

CHAIR TROWBRIDGE declared the Public Hearing open.

MARGO WHEELER, Director of Planning and Development, explained that this item was tabled at the previous meeting. A recommendation is needed from the Planning Commission, as this recommendation was approved by the City Council as part of the Transportation and Street and Highways Element adopted in April of 2009. It applies to new development anticipated to generate more than 100 peak-hour vehicle trips, such as those of a new subdivision of 156 single family homes or a 55,000-foot general office development.

PLANNING COMMISSION MEETING OF: AUGUST 27, 2009

By requiring a study prior to the project's approval, it would eliminate the subsequent changes that often occur in the design after the Planning Commission and the City Council have seen a project. A recommendation would allow staff to proceed. Staff recommended approval. There have been significant discussions between Planning and Development and Public Works with regard to different thresholds that could be established, but this remains the recommendation of both departments.

CHAIR TROWBRIDGE declared the Public Hearing closed.
